

Year-round IRIS

Grown in USA!

Sun Valley specializes in the premier Telstar Iris—a too-good-to-be-true—BLUE Iris! The only blue Iris that fully opens.

AVAILABILITY
YEAR-ROUND

FORM: Iris blooms have six petals—the 3 outer petals are called “falls” which drop away from the center and the 3 upright inner petals are called “standards”.

LASTING: Sun Valley has premier Iris varieties in a superior color mix— including blue Telstar, the LONGEST LASTING Iris on the market!

SIZE: Our grading standard is 20”+ stem length with an average bloom of 2-3”.

BUNCHES: Standard bunch size: 10 stems. Also available as Consumer Bunches and as Enhanced Bunches. Additional options: Mixed-Iris-Bunch with Tulips, Lilies, Crocosmia and more!

FARM FRESH: Our Iris bulbs receive specific temperature treatments to produce optimal blooms, foliage—and ultimately— better lasting qualities. They are planted in rich soils where they mature into vigorous plants. Irises are harvested when a sliver of color is showing on the flower head, just before the bud becomes full, keeping the delicate petals safe during transport. Sun Valley Iris receive proprietary post-harvest treatment for a consistently high quality cut-flower.

CARE & HANDLING: Upon arrival cut stems and place into a clean container with fresh water. Keep in cool location out of direct sunlight and drafts. Replenish water as needed.
